

Year 5 Residential to Burwell House

Year 5's residential trip to Burwell was at the start of the year. As it was at the start of the year it allowed us to get to know everyone in the year group and make new friends.

We carried out a range of exciting activities linked to making films, we were working in teams and each person in the team had a vital role to play. Please have a look at the photographs below of us carrying out the activities. Can you think of what we were doing and why these tasks are important in making films?
